Michael Lozano, Jr., M.D., HCFR Medical Director

1. Basic BLS treatments
2. Refer to **HCFR SPINAL MOTION RESTRICTION** protocol and apply as indicated.
3. Splint as appropriate
4. For severe pain, request ALS for pain management unless travel time to the closest appropriate facility is shorter than ALS estimated time of arrival
5. ALS evaluation and transport criteria:
 - a. Any patient who has received analgesia
 - b. Any patient with compromised circulation in the affected limb
 - c. Any patient with long bone fractures or dislocations that cannot be stabilized without analgesia
