Michael Lozano, Jr., M.D., HCFR Medical Director

1. Whenever a member of Hillsborough County Fire Rescue files a workers compensation claim for an exposure or potential exposure to blood or other potentially infectious material the circumstances surrounding the exposure will be evaluated, including:
  - a. Engineering controls in place at the time of the exposure.
  - b. Work practice controls in place at the time of the exposure:
    - i. Personal protective equipment and clothing utilized during the time of exposure.
    - ii. Current policies and control failures, if any.
2. The primary goal of this evaluation is to identify and correct problems in order to prevent a recurrence of similar incidents.
